Employment in Morrow & Umatilla Counties: October 2025

Employment Reports Delayed Again After Federal Government Shutdown

The U.S. Bureau of Labor Statistics (BLS) has resumed production of the monthly employment reports for the nation on a delayed schedule after the lapse in federal government appropriations that began on Oct. 1, 2025.

The most recent update from the BLS on Wednesday, Nov. 19 says, “BLS will not publish an October 2025 Employment Situation news release. Establishment survey data from the Current Employment Statistics survey for October 2025 will be published with the November 2025 data. Household survey data from the Current Population Survey could not be collected for the October 2025 reference period due to a lapse in appropriations. The household survey data is not able to be retroactively collected. The collection period for November 2025 data will be extended for both surveys, and extra processing time will be added.”

Currently, Morrow County and Umatilla County’s monthly nonfarm job estimates and unemployment rates are still not available beyond August 2025 and publication dates for the states and metropolitan areas have not been announced.

[Claims for unemployment insurance](#) (UI) show a partial picture, as only a portion of all unemployed Oregonians are eligible for these benefits. First-time or initial UI claims in recent weeks appeared to be within the typical range for this time of year. Ongoing or continued claims have followed seasonal trends, close to levels seen in recent years. September continued claims for unemployment insurance totaled 53 in Morrow County (+43% compared to last September), while Umatilla County’s totaled 323 (+6% compared to last September).
