## **Employment in Jackson County: September 2025**

### **Payroll Employment Slips Over the Year**

Total payroll employment in Jackson County rose by 960 jobs in September, largely due to a seasonally expected increase in retail trade and local government education. Retail trade gained 790 jobs while local government education added 480 jobs over the month. Industries with employment loss over the month were leisure and hospitality (-300), and construction (-80). Other published industries showed little job change relative to their total employment.

Over the past year, payroll employment in the Medford MSA (Jackson County) fell by 440 jobs, or -0.5%. Since September 2024 industries adding jobs were health care and social assistance (+410); leisure and hospitality (+110); and transportation, warehousing, and utilities (+70). Industries shedding jobs were retail trade (-640); manufacturing (-190); financial activities (-120); other services (-60); information (-30); wholesale trade (-30); and mining and logging (-30).

Government employment fell by 120 jobs over the year. Losses were posted in local (-60), federal (-50), and state government (-10).

Jackson County's seasonally adjusted unemployment rate was estimated at 5.7% in September, little changed from 5.6% in August and up slightly from 5.0% in September 2024.

### **Next Press Releases**

The Oregon Employment Department plans to release the October and November county and metropolitan area unemployment rates and employment survey data on Tuesday, Jan. 13<sup>th</sup>, and the statewide data for October and November on Wednesday, Jan. 7<sup>th</sup>. The October employment survey jobs data will be released along with November's data, but there won't be October labor force or unemployment data published.

**Notes:**

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted. These preliminary estimates of jobs and other labor force data are produced in cooperation with the federal Bureau of Labor Statistics, are based largely on a survey of businesses and a survey of households, and are subject to later revision.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.
