Employment in Lane County (Eugene MSA)

Lane County Employers Add 300 Jobs in July

Lane County's seasonally adjusted payroll employment rose by 300 jobs in July after an increase of 500 in June and 300 in May.

In the not seasonally adjusted private-sector industries in July, there were gains in private education and health services (400), construction (300), professional and business services (300), and leisure and hospitality (200).

Government dropped 4,500 jobs in July due to a seasonal loss of 4,800 due to summer break in local education, which includes the University of Oregon. The loss was countered by a gain of 100 each in federal government, state government and noneducation local government.

When comparing July 2024 with July 2023, total nonfarm employment added 3,900 jobs on a seasonally adjusted basis for a gain of 2.4%. There were over-the-year gains in private education and health services (1,800), leisure and hospitality (1,500), and financial activities (200). There were losses in professional and business services (-300), manufacturing (-200) and retail trade (-200).

There was an over-the-year increase of 2,200 in government due to gains in local education (1,600), noneducation local government (300), state government (200), and federal government (100).

Lane County's seasonally adjusted unemployment rate was unchanged at 4.2% in July compared with a revised 4.2% in June. The rate is higher than the 3.8% recorded in July 2023. Lane County's record low rate was 3.5% in November 2019. The Oregon seasonally adjusted July rate was 4.1% and the U.S. rate was 4.3%.

Next Press Releases

The Oregon Employment Department plans to release the August county and metropolitan area unemployment rates and employment survey data on Tuesday, Sept. 24th and the statewide unemployment rate and employment survey data for August on Wednesday, Sept. 18th.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence.

Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants.

Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
