Oregon's Nonfarm Payroll Employment Rises by 1,700 in October

In October, Oregon's seasonally adjusted nonfarm payroll employment gained 1,700 jobs, following a revised increase of 900 jobs in September. October's gains were largest in **health** care and social assistance (+2,400 jobs); government (+1,700); and financial activities (+1,200). Declines were largest in **professional and business services** (-2,400 jobs); manufacturing (-1,200); and transportation, warehousing, and utilities (-1,000).

In the past 12 months, **health care and social assistance** (+16,900 jobs, or 5.8%) grew rapidly, while **government** (+7,000 jobs, or 2.3%) added the second most jobs. In that time, only three major industries declined by 1,000 jobs or more: **retail trade** (-3,700 jobs, or -1.8%); **construction** (-2,000 jobs, or -1.7%); and **manufacturing** (-1,000 jobs, or -0.5%).

Quarterly revisions indicate stronger job growth during the first half of 2024 than previously estimated. This put nonfarm payroll employment levels nearly 10,000 above previous estimates for June and subsequent months. Upward revisions during these months were largest in **professional and business services** (revised upward by 6,400 jobs); **retail trade** (+2,000 jobs); and **private educational services** (+1,600). The largest downward revision was in **real estate and rental and leasing**, which came in 800 jobs lower than previously estimated during June through August.

Oregon's unemployment rate was 4.0% in both September and October and has consistently remained between 4.0% and 4.2% since October 2023. The U.S. unemployment rate was 4.1% in both September and October.

Next Press Releases

The Oregon Employment Department plans to release the October county and metropolitan area unemployment rates on Tuesday, Nov. 19, and the next statewide unemployment rate and employment survey data for November on Wednesday, Dec. 18.

Seasonal Expectations and Over-the-Month Employment Changes September to October 2024

September to October 2024

Other services	400	1,100	700						
Government	11,200	12,900	1,700						

Notes:

All numbers in the above narrative are seasonally adjusted.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly Oregon payroll employment and labor force data. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department publishes payroll employment estimates that are revised quarterly by using employment counts from employer unemployment insurance tax records. All department publications use this *Official Oregon Series* data unless noted otherwise. This month's release incorporates the April, May and June 2024 tax records data. The department continues to make the original nonfarm payroll employment series available; these data are produced by the BLS.

The PDF version of the news release can be found at QualityInfo.org/press-release. To obtain the data in other formats such as in Excel, visit QualityInfo.org, select *Tools*, then choose *LAUS* or *CES* under the *Economy* header. To request the press release as a Word document, contact the person shown at the top of this press release.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Labor Force Status: Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence. Employed includes nonfarm payroll employment, self-employed, unpaid family workers, domestics, agriculture and labor disputants. Unemployment rate is calculated by dividing unemployed by civilian labor force.

U-6 is the total unemployed plus all persons marginally attached to the labor force plus total employed part-time for economic reasons, as a percent of the civilian labor force plus all persons marginally attached to the labor force.

Nonfarm Payroll Employment: Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics. These survey-based estimates are revised quarterly, based on more complete information from employer tax records.
