Employment in Salem MSA (Marion and Polk Counties): October 2023

Salem MSA's Unemployment Rate Increases to 3.6%

The Salem MSA's seasonally adjusted unemployment rate was 3.6% in October, edging up from its revised rate of 3.5% in September. Oregon's statewide unemployment rate in October was 3.6%, up from its revised September rate of 3.5%.

Employment gains in the Salem MSA in October were more than normal; total nonfarm employment increased by 1,400 jobs, when an employment increase of 1,000 jobs would be expected. As a result, seasonally adjusted employment was up 400 between September and October. With October's gains, employment is up 4.5% or 7,800 jobs above the pre-pandemic employment level in February 2020.

Overall, the private sector added 500 jobs in October. The largest private-sector job gains in October were reported in private education and health services (+500 jobs, +1.5%) and trade, transportation, and utilities (+300 jobs, +1.0%).

Private-sector job losses in October were reported in leisure and hospitality (-400 jobs, -2.4%); food manufacturing (-100 jobs, -2.7%); and administrative and support services (-100 jobs, -1.1%).

The public sector added 900 jobs in October. Local government was up 800 jobs in October. State government added 100 jobs and federal government employment was unchanged in October.

Next Press Releases

The Oregon Employment Department plans to release the November county and metropolitan area unemployment rates on Wednesday, Dec. 27 and the statewide unemployment rate and employment survey data will be released on Wednesday, Dec. 20.

The most recent month is preliminary, the prior month is revised. Prepared in cooperation with the U.S. Department of Labor, Bureau of Labor Statistics.

Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence. Employed includes payroll employment, self-employed, unpaid family workers, domestics, agriculture, and labor disputants. Unemployment rate is calculated by dividing unemployed by civilian labor force.

Nonfarm Payroll Employment: Official Oregon Series. Data are by place of work and cover full- and part-time employees who worked or received pay for the pay period that includes the 12th of the month. The data exclude the self-employed, volunteers, unpaid family workers, and domestics.

The Oregon Employment Department and the U.S. Bureau of Labor Statistics (BLS) work cooperatively to develop and publish monthly payroll employment and labor force data for Oregon's metropolitan areas and counties. The estimates of monthly job gains and losses are based on a survey of businesses. The estimates of unemployment are based on a survey of households and other sources.

The Oregon Employment Department payroll employment estimates are revised quarterly using information from unemployment insurance tax records. All department publications use data from this *official Oregon series* unless noted.

The department also makes the BLS-produced nonfarm payroll employment series for metropolitan areas available. These are revised annually by BLS.
